# Capability Statement

Ethical AI training for leadership, workforce readiness, governance, and community & economic development. Procurement-friendly delivery with invoice/PO support and aggregate-only reporting.

## Core competencies

- Workforce readiness cohorts: job search systems, productivity workflows, responsible AI use
- Leadership development: planning, communication, decision-making, stakeholder alignment
- Governance & compliance: data boundaries, vendor risk basics, policy-ready guidance
- Community & economic development: grant readiness, program design, operational planning

## Differentiators

- Privacy-first delivery (v1): no participant accounts required; no surveillance or individual tracking
- Audit-ready documentation: procurement checklist, invoice/PO flow, RFP boilerplate, partner packet
- Fast time-to-launch: typical pilots start in 7-21 days depending on procurement route
- Accessible format: practical lessons designed for real-world application

## Delivery model

| Option | Typical duration | What's included |
|---|---|---|
| Pilot (30-60 days) | 4-8 weeks | Kickoff + weekly cadence + wrap-up; aggregate sponsor update |
| Sponsored cohort | 6-10 weeks | Seat sponsorship + toolkit + optional facilitation |
| Enterprise / institutional | Custom | Invoice/PO + optional train-the-trainer + reporting cadence |
